1. In spite of the considerable dismantling of machinery and equipment, cellulose production has been increased in the Russian Zone to a monthly figure of 13,000 tons. Of this, 5,000 tons is artificial silk cellulose and 2,000 tons is sulphate (Kraft-Cellulose).
2. Recently, the Saxon paper industry received an order from the Russian authorities for delivery of 2,000 tons of the best writing paper on reparations account. This paper is to be used for printing the "Stalin" and "Lenin" books, which are to be put on the market.

This document contains information affecting the national defense of the United States within the meaning of the Espionage Act 50 U.S.C. 21 and 32, as amended. Its transmission or the revelation of its contents in any manner to an unauthorized person is prohibited by law.
